TECHNICAL DATA SHEET

Still so Simple, Strong and Reliable

The Grand Raid name is almost as old as Zodiac itself and has gone through design and feature evolutions to still be very relevant in today's market.

GR's form the backbone of many small boat fleets and are pretty much unique in its full equipment definition.

They continue to answer the needs of users worldwide.

From October 2009, Zodiac is proposing the Mark III GR Next Generation, with a new Bow Shape, a reinforced Fabric, new Valves, a Large Flow Self-bailer, and a Long Shaft Transom adapted to 4-stroke engines...

The MK 3 GR Long Shaft is available on stock.

Important Note: Boats available in North America may have different specifications.
